Index to Volume 31 (2000), Nos 1–6, pages 1–690

Articles

A comparison of different postures for scaffold end-frame disassembly *Cutlip, R., Hsiao, H., Garcia, R., Becker, E. and Mayeux, B.* **507**

A new approach to applying feedforward neural networks to the prediction of musculoskeletal disorder risk *Chen, C.-L., Kaber, D.B. and Dempsey, P.G.* **269**

A participant-observer study of ergonomics in engineering design: how constraints drive design process *Burns, C.M. and Vicente, K.J.* **73**

An ergonomics study on compatibility of controls of overhead cranes in a heavy engineering factory in West Bengal *Sen, R.N. and Das, S.* **179**

An observation instrument for assessment of work technique in patient transfer tasks *Kjellberg, K., Johnsson, C., Proper, K., Olsson, E. and Hagberg, M.* **139**

Anthropometric data of elderly people in Australia *Kothiyal, K. and Tettey, S.* **329**

Assessment, re-design and evaluation of changes to the driver's cab in a suburban electric train *Stevenson, M.G., Coleman, N., Long, A.F. and Williamson, A.M.* **499**

Biomechanical analyses of paramedics simulating frequently performed strenuous work tasks *Lavender, S.A., Conrad, K.M., Reichelt, P.A., Johnson, P.W. and Meyer, F.T.* **167**

Biomechanical analysis of the dimensions of pilot seats in civil aircraft *Goossens, R.H.M., Snijders, C.J. and Fransen, T.* **9**

Computer use in cold environments *Blomkvist, A.-C. and Gard, G.* **239**

Computer-aided ergonomics: a case study of incorporating ergonomics analyses into workplace design *Feyen, R., Liu, Y., Chaffin, D., Jimmerson, G. and Joseph, B.* **291**

Conditions for maintaining ageing operators at work—a case study conducted at an automobile manufacturing plant *Gaudart, C.* **453**

Determining fatigue allowances for grocery order selectors *Lund, J. and Mericle, K.S.* **15**

Development of an ergonomic evaluation facility for Indian tractors *Patel, R., Kumar, A. and Mohan, D.* **311**

Development work for quality and ergonomics *Eklund, J.* **641**

Difference thresholds for automobile seat vibration *Mansfield, N.J. and Griffin, M.J.* **255**

Effects of semi-rigid arch-support orthotics: an investigation with potential ergonomic implications *Kelaher, D., Mirka, G.A. and Dudziak, K.Q.* **515**

Effects of two ergonomic aids on the usability of an in-line screwdriver *Freund, J., Takala, E.-P. and Toivonen, R.* **371**

Environmental ergonomics: a review of principles, methods and models *Parsons, K.C.* **581**

Ergonomics and ethics in a changing society *Corlett, E.N.* **679**

Ergonomics, gerontechnology, and design for the home-environment *Pinto, M.R., De Medici, S., Van Sant, C., Bianchi,A., Zlotnicki, A. and Napoli, C.* **317**

Ergonomics in industrially developing countries: does its application differ from that in industrially advanced countries? *O'Neill, D.H.* **631**

Ergonomics investigation of retail ice cream operations *Dempsey, P.G., McGorry, R.R., Cotnam, J. and Braun, T.W.* **121**

Evaluating factors that influence hand–arm stress while operating an electric screwdriver *Chang, C.-H. and Wang, M.-J.J.* **283**

Evaluation of an 8 hour versus a 12 hour shift roster on employees at a power station *Mitchell, R.J. and Williamson, A.M.* **83**

Fundamentals of ergonomics in theory and practice *Wilson, J.R.* **557**

Gender-age environmental associates of adolescent low back pain *Grimmer, K. and Williams, M.* **343**

Helmet accommodation analysis using 3D laser scanning *Meunier, P., Tack, D., Ricci, A., Bossi, L. and Angel, H.* **361**

Impact of physical exposure on neck and upper limb disorders in female workers *Hansson, G.-Å., Balogh, I., Ohlsson, K., Pålsson, B., Rylander, L. and Skerfving, S.* **301**

In-chair movement: validity, reliability and implications for measuring sitting discomfort *Anne Fenety, P., Putnam, C. and Walker, J.M.* **383**

Kinetics and energetics during uphill and downhill carrying of different weights *Laursen, B., Ekner, D., Simonsen, E.B., Voigt, M. and Sjøgaard, G.* **159**

Length of the spine while sitting on a new concept for an office chair *van Deursen, D.L., Goossens, R.H.M., Evers, J.J.M., van der Helm, F.C.T. and van Deursen, L.L.J.M.* **95**

Limits of and possibilities to improve the IREQ cold stress model (ISO/TR 11079). A validation study in the field *Griefahn, B.* **423**

Making the most of ecological interface design: the role of individual differences *Torenvliet, G.L., Jamieson, G.A. and Vicente, K.J.* **395**

Maximum forces sustained during various methods of exiting commercial tractors, trailers and trucks *Fathallah, F.A. and Cotnam, J.P.* **25**

Mechanical impedance of the human body in vertical direction *Holmlund, P., Lundström, R. and Lindberg, L.* **415**

Modeling the customer in electronic commerce *Helander, M.G. and Khalid, H.M.* **609**

Motion times, hand forces, and trunk kinematics when using material handling manipulators in short-distance transfers of moderate mass objects *Nussbaum, M.A., Chaffin, D.B., Stump, B.S., Baker, G. and Foulke, J.* **227**

On the confusion between static load level and static task *Ankrum, D.R.* **545**

Optimum pinch grips in the handling of dies *Heffernan, C. and Freivalds, A.* **409**

Patient handling with and without slings: an analysis of the risk of injury to the lumbar spine *Elford, W., Straker, L. and Strauss, G.* **185**

People and computers — some recent highlights *Shackel, B.* **595**

Performance of a 2D image-based anthropometric measurement and clothing sizing system *Meunier, P. and Yin, S.* **445**

0003-6870/00/$ - see front matter
PII: S0003-6870(00)00063-6

Postural analysis of paramedics simulating frequently performed strenuous work tasks *Lavender, S.A., Conrad, K.M., Reichelt, P.A., Meyer, F.T. and Johnson, P.W.* **45**

Production economics analysis of investment initiated to improve working environment *Abrahamsson, L.* **1**

Prospective memory: a secondary task with promise *Sauer, J.* **131**

Psychophysical assessment of assistive devices for transferring patients/residents *Zhuang, Z., Stobbe, T.J., Collins, J.W., Hsiao, H. and Hobbs, G.R.* **35**

Rapid Entire Body Assessment (REBA) *Hignett, S. and McAtamney, L.* **201**

Ride vibration on tractor-implement system *Mehta, C.R., Shyam, M., Singh, P. and Verma, R.N.* **323**

Running focus groups with elderly and disabled elderly participants *Barrett, J. and Kirk, S.* **621**

Scenario building as an ergonomics method in consumer product design *Suri, J.F. and Marsh, M.* **151**

Self-perceived exertion level and objective evaluation of neuromuscular fatigue in a training session of orchestral violin players *Chan, R.F.M., Chow, C.-y., Lee, G.P.S., To, L.-k., Tsang, X.Y.S., Yeung, S.S. and Yeung, E.W.* **335**

Sociotechnical principles for system design *Clegg, C.W.* **463**

Soft systems, hard lessons *Kirwan, B.* **663**

Some observations regarding the vibrational environment in child safety seats *Giacomin, J.* **207**

System to measure the use of the backrest in sitting-posture office tasks *Vergara, M. and Page, Á.* **247**

The application of ergonomics in rural development: a review *Jafry, T. and O'Neill, D.H.* **263**

The effectiveness of activating electrical devices using alpha wave synchronisation contingent with eye closure *Craig, A., Tran, Y., McIsaac, P., Moses, P., Kirkup, L. and Searle, A.* **377**

The effects of interruptions in work activity: field and laboratory results *Eyrolle, H. and Cellier, J.-M.* **537**

The evaluation of workplaces subjected to heat stress: can ISO 7933 (1989) adequately describe heat strain in industrial workplaces? *Kampmann, B. and Piekarski, C.* **59**

The influence of bed firmness on sleep quality *Bader, G.G. and Engdal, S.* **487**

The influence of speed, grade and mass during simulated off road bicycling *Berry, M.J., Koves, T.R. and Benedetto, J.J.* **531**

Three evaluations of task-surface heights in elderly people's homes *Kirvesoja, H., Väyrynen, S. and Häikiö, A.* **109**

Visibility of road hazards in thermal, visible, and sensor-fused night-time imagery *McCarley, J.S. and Krebs, W.K.* **523**

Voluntary pacing and energy cost of off-road cycling and running *Mastroianni, G.R., Zupan, M.F., Chuba, D.M., Berger R.C. and Wile, A.L.* **479**

Work organization and ergonomics *Carayon, P. and Smith, M.J.* **649**

Work-related musculoskeletal complaints: some ergonomics challenges upon the start of a new century *Westgaard, R.H.* **569**
